

Since 1977 we have been reconditioning all types of hydraulic cylinders –

- Tie rod construction
- Welded construction
- Flanged construction
- Single acting & rams
- Double acting
- Cushioned
- No-cushioned

As manufactured by – Titan, Triple Six, Hydroline, Vickers, Atos, Rexroth, Parker Hannifin, Cattermole, Hyststat, Eland, Aro, etc.

Customers may also request our [fast turnaround service](#)

For those units where spares are no longer available, we investigate costs of a replacement unit or manufacturing spares and advise the customer in order to agree the best course of action.

In carrying out cylinder repairs, we are often able to effect **sealing improvements** which can be of great benefit to the customer.

[Note that we have over 20,000 items on our database and can often cross reference an item.](#)

On completion of re-assembly, units are fully tested on to DGH purpose made test rig and run up to simulate working conditions.

For the rare cases where we are unable to test a unit, the customer is advised accordingly.

Appropriate test certificates can be provided on request.

OUR REPAIR PROCESS GOES ONE STEP FURTHER – WE ADVISE CUSTOMERS OF PROBABLE CAUSE OF FAILURE & ADVISE ON BOTH REMEDIAL & PREVENTION MEASURES
